Please place a ✓ next to the workshop(s) you are registering for:

ONE-DAY HANDSPINNING WORKSHOP USING A SPINNING WHEEL (up to 5 hours): Learn how to handspin yarn from fiber that I have prepared for you. We will start with simple, basic instruction on how a spinning wheel works, how to use a spinning wheel, and spinning your first yarn. **\$125.00 non-refundable and non-transferable fee per person for the day. Payment in full is due prior to the first workshop.**

ONE-DAY WEAVE-YOUR-OWN SCARF WORKSHOP (up to 8 hrs): Basic information on weaving is provided. You will be given written and verbal instruction to weave your 5 ft. scarf from available yarns. I will warp the loom beforehand. After weaving your first scarf, you can decide if you would like to continue with more in-depth lessons. **\$150.00 non-refundable and non-transferable fee per person for the day. Payment in full is due prior to the workshop.**

TWO-DAY WARP & WEAVE-YOUR OWN SCARF WORKSHOP (up to 8 hrs daily): Before weaving, basic information on how a loom is operated will be provided. **\$225 non-refundable and non-transferable fee per person. Payment in full is due prior to the workshop.** (Cont'd)

DAY 1: You will be provided with written and verbal instruction to warp (prepare) the loom for weaving using the sectional method. This will include winding the yarn onto bobbins, warping the loom, threading the heddles, sleying the reed, treadle tie-up.

DAY 2: The second day of the workshop will be spent first weaving a sample using stick and boat shuttles until you are comfortable. After sampling, the rest of the day will be spent weaving your own 5 foot long scarf from a choice of yarns I have available.

___ 1/2-DAY KNITTING WORKSHOP: By the end of the workshop, you will have enough information to knit your first project, a hand knitted scarf. Yarn, knitting needles and instruction will be provided. **\$75 non-refundable and non-transferable fee per person for the day. Payment in full is due prior to the workshop.**

___ 1/2 DAY SOAP MAKING WORKSHOP: Make soap from scratch using the "Cold Process" method, learn cure times, what oils can be used in soap making, how specific oils can help certain skin conditions. We will discuss lye in soapmaking, saponification (the chemical reaction that takes place when oil, water and lye combine to form soap and glycerin), safety when using lye, equipment and utensils. **\$45 non-refundable and non-transferable fee per person for the day. Payment in full is due prior to this workshop.**

During this workshop, you will make three one pound batches of soap: (1) one with fragrance (and how much to add); (2) one without fragrance, but with an oatmeal exfoliant; and (3) one with fragrance and exfoliant. After your soaps have been made, you will leave with all three batches which when cut, will yield twelve 4 oz. bars. With the cold process (CP) method, soaps require an 8-week cure time and should not be used prior to fully curing. Students need to bring the following:

- One(1) large stainless steel bowl for mixing ingredients
- Three (3) containers (molds) that will hold at least one lb. of soap (plastic, wood, glass, box).
- One (1) handmixer (preferably electric with stainless steel blades)
- One (1) long handle plastic spoon
- One (1) pair of intact rubber gloves (no holes, preferably a new pair)
- One (1) long-sleeved shirt to protect arms while working with lye
- One (1) plastic apron (plastic trash bag with holes cut out for neck and arms will do)
- One (1) pair of protective eyewear (glasses or goggles)
- One (1) old blanket or large towel to cover molds and retain heat during saponification

PLEASE HAVE THE ABOVE ITEMS AS THEY WILL NOT BE PROVIDED FOR YOU.

Ingredients consisting of oils, exfoliants, fragrance, lye and water will be provided by me.
